- Diversity
- Service
- Equity

---

“Being a peer advocate means being more observant of your surroundings, as well as just simply being there for your peers and advocating for their needs. The program has impacted me so much. It helped me decide that I actually want to work with victims as my career. It has also given me so much experience and knowledge of what to do to help in different situations, as well as all of the resources on campus.” – Spring 2019 Advocate
